AirTrack Factory

AIRBAG **TRAMPOLINE EDITION**

AirTrack Factory has established itself as the world leader in inflatable sports equipment manufacturing, perfecting the art of producing and supplying AirTracks to sportsmen of all types, then backing those attractions with dependable and on-going service. Driven by innovation and desire for growth, AirTrack Factory spent more than a year researching, prototyping, testing and building the next major addition to the AirTrack Product Line: The AirTrack Factory AirBag.

The unmatched aesthetics of the plane flat landing surface with impeccable print quality supported by continued traditional use of best in-industry material and expert craftsmanship make our AirBag unmistakably AirTrack Factory.

And we are very proud of that.

Machine-washable
topsheets

Self developed
top sheet tightner

AIRBAG
BY AirTrack

YOUR IMAGE IS *YOUR REPUTATION*

AirTrack Factory understands that and has built a bag that structurally and aesthetically not only fits your brand but extends and improves the facility environment you've worked so hard to create.

Due to a self-tightning system the silky smooth topsheets will tighten itself after each jump. Our improved wall structure makes sure the AirBag keeps its shape and helps jumpers leave the AirBag with great ease! This, in combination with our impeccable print quality ensure the AirBag will look its best for years to come.

If the covers do get dirty, the covers are machine washable or, in the worst case, easily replaceable!

THE FLATTEST SURFACE
BEAUTIFUL LINES, SELF-STRAIGHTNING COVERS, EASY EXIT

IT'S ALL IN THE DETAIL

Premium equipment requires premium detail. Pulling up the metaphoric hood of the top sheet reveals a web of engineering innovations, intelligent manufacturing decisions, and smart solutions which all back our claims.

All parts, big or small, have been tested and monitored in busy trampoline parks to perfect the AirTrack Factory AirBag for longevity.

Unique air
management system

UNIQUE AIR MANAGEMENT

30 Years of experience creating inflatable objects have made AirTrack Factory CEO Geert Koenen an expert in aerodynamics and inflatable structures.

All over the AirBag you will find Geert his footprints, in the shape of smart techniques to ensure weary parts are easily and cost-efficiently replaceable, the softness is fully customizable to your preferences and the air from shocks is absorbed with technical precision.

The AirTrack Factory AirBag has been designed to withstand years of happy customers jumping for joy!
